

**MRFTI, LLC**

## **CERTIFICATED MULTI-ENGINE INSTRUCTOR COURSE**

The Certificated Multi-Engine Instructor Course will equip you with the skills to teach the maneuvers you learned during your Multi-Engine training: Stalls, maneuvering during slow flight, steep turns, emergency procedures, VMC demonstration, drag demonstration, engine failures on take-off, cruise and landing, and instrument approaches with both engines operating and with one engine inoperative. The Certified Multi-Engine Instructor rating is earned by passing a check ride with an FAA-designated examiner. The Multi-Engine Instructor Course will fully prepare you for this check ride and prepare you for a career as a multi-engine flight instructor.

**Requirements:** You must hold a Flight Instructor Certificate with an Airplane Rating to qualify for this course. The average course completion time is around 15 hours. Additional instruction may be necessary depending upon the abilities of each individual student. We recommend students fly at least twice per week. Pricing shown below is for a Part 61 program. Pricing for the Part 141 version of this course is available from our staff.

**Package Details:** Our package includes training materials and flight hours that you will need to complete the course. Purchasing a package locks-in aircraft rental and instruction rates for six (6) months from purchase date, although you will still be subject to an additional charge if you receive the Renter's Insurance discount price and elect to discontinue your coverage. If you complete the program in less time than offered in a package, the remaining funds are available for your personal use.

**PACKAGE: \$4,689.00\***

**Without Renter's Insurance: \$4,719.00\***

*\$108.00 savings versus pay-as-you-go rates.*

- 15 Hours in a BE-76
- 13.5 Hours of Flight Instruction
- 3 Hours of Ground Instruction
- Jeppesen Flight Instructor Kit (\$300.00)

*\* Subtract the cost of the Kit for students providing their own training materials (part 61 only). This cost does not include any necessary flight publications or applicable sales tax. For those students who want to pursue their certificate on a pay-as-you-go basis, please refer to published aircraft rental and instruction rates. Financing options are available through third party lenders.*
