## PRIVATE PILOT CERTIFICATE COURSE

The Private Pilot Certificate Course is designed to teach you basic flight maneuvers, airplane systems, aerodynamics, night flight, cross-country navigation, Federal Aviation Regulations, and develop the skills and attitude necessary to be a proficient, safe, private pilot. A step up from Recreational, a Private Pilot can fly farther, at night, and operate more complex aircraft with more carrying capacity (some require additional ratings). Private Pilot's can also carry more than one passenger if the aircraft allows it. The Private Pilot Certificate is earned by passing a check ride given by an FAA-designated examiner. The Private Pilot Certificate Course will fully prepare you for this check ride as well as for many years of enjoyable flying.

**Requirements:** You must qualify for a Third Class Medical and a Student Pilot Certificate to qualify for this course. The FAA requires a minimum of 40 flight hours (35 flight hours under part 141) to qualify for the Private Pilot Certificate. The average course completion time is around 50 hours. Additional instruction may be necessary depending upon the abilities of each individual student. We recommend that students fly at least twice per week. Pricing for both Part 61 and Part 141 versions of this course are the same.

**Package Details:** Our packages, which are divided into stages, combine to include training materials and flight hours that you will need to complete the course. Purchasing a package locks-in aircraft rental and instruction rates for six (6) months from purchase date, although you will still be subject to an additional charge if you receive the Renter's Insurance discount price and elect to discontinue your coverage. If you complete the program in less time than offered in a package, the remaining funds are available for your personal use.

<p><b>STAGE 1 PACKAGE: \$3,405.00*</b>  <b>Without Renter's Insurance: \$3,445.00*</b>  <i>\$67.00 savings versus pay-as-you-go rates.</i></p> <ul style="list-style-type: none"> <li>• 20 Hours in a C-172</li> <li>• 19 Hours of Flight Instruction</li> <li>• 8 Hours of Ground Instruction</li> <li>• Jeppesen Private Kit (\$260.00)</li> </ul>	<p><b>STAGE 2 PACKAGE: \$2,175.00*</b>  <b>Without Renter's Insurance: \$2,205.00*</b>  <i>\$45.00 savings versus pay-as-you-go rates.</i></p> <ul style="list-style-type: none"> <li>• 15 Hours in a C-172</li> <li>• 9 Hours of Flight Instruction</li> <li>• 6 Hours of Ground Instruction</li> </ul>	<p><b>STAGE 3 PACKAGE: \$2,105.00*</b>  <b>Without Renter's Insurance: \$2,135.00*</b>  <i>\$43.00 savings versus pay-as-you-go rates.</i></p> <ul style="list-style-type: none"> <li>• 15 Hours in a C-172</li> <li>• 7 Hours of Flight Instruction</li> <li>• 6 Hours of Ground Instruction</li> </ul>

*\* Subtract the cost of the Kit for students providing their own training materials (part 61 only). This cost does not include any necessary flight publications or applicable sales tax. For those students who want to pursue their certificate on a pay-as-you-go basis, please refer to published aircraft rental and instruction rates. Financing options are available through third party lenders.*
